

Submitter: E S

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB3090

As a citizen that is in my early 40s and used vape products to cut extremely back on my tobacco use am extremely opposed to the ban. I grew up in a time when there were no flavored options and it did not slow or stop myself or other teens I knew from trying tobacco products. Working in retail I have personally witnessed more of an issue with the flavored alcohol with teens than I have witnessed with nicotine products yet that is apparently ok.
