

Submitter: M S

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2002

I am writing in opposition to HB 2002. Under this legislation, doctors would be allowed to provide reproductive healthcare services, including abortion and gender affirming healthcare, to minors without the parents consent...this should NEVER even be a question...they are a minor, therefore the parents have the right to be informed. Oregon is just determined to indoctrinate the children.
