

Submitter: dell goldsmith

On Behalf Of:

Committee: Senate Committee On Natural Resources

Measure: SB85

I am strongly in support of SB-85-1! If you dilute this bill you are destroying our ability to regulate the most powerful pollutants that come from dairy industries in particular. Yes, damage from chicken industry needs regulation too but do not eliminate the vital regulations needed for dairy. We all need clean water and clean air. Damage to our environment is dangerous to us all. Please stand up for our communities!
