

Submitter: Katie Glaser

On Behalf Of: Self

Committee: Senate Interim Committee on Natural Resources and Wildfire Recovery

Measure: SB 85

Chair Golden & Senators of the Committee on Natural Resources,

My name is Katie Glaser and I oppose SB 85.

The current CAFO system is already highly structured and regulated in order to uphold the highest environmental standards. The program already functions well. Please don't put any moratoriums in effect before knowing if they are necessary or not. Instead evaluate and study the things this bill seeks while current farming practices continue. It seems strange to me that you would try to regulate something before having all the facts.

I am a farmer and have grown up in agriculture my entire life. Sustainability is my main concern along with almost every other farmer, rancher, dairy, forester and the rest of the natural resource community. We do everything we can to ensure a healthy future for our land, animals and the next generations.

I ask you to vote no on SB 85.

-Katie Glaser
