

Submitter: Carol Cercone

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB2007

Please support of HB 2007. The public deserves to be safe from gun violence in public buildings. Excluding any firearms in public buildings is one simple way to prevent senseless mass shootings. People who are working every day need to be able to decide if they want to ban weapons from their school, workplace, and church. I urge you to support this measure.

Thank you.

Carol Cercone
