On Behalf Of:

Committee: Senate Committee On Natural Resources

Measure: SB85

In light of new information, I would like to voice concern that -3 does not provide adequate protection to our communities. This simply buys some time and will allow for headway to be made in expanding the poultry operation that is proposed. It is in the best interest of the farms, communities, and residents that the -1 is moved out of committee. This is a far more reasonable and responsible move.

Respectfully,  
Molly Perino
