

Submitter: Dan Wade
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB2007

As a fourth generation Oregonian it is appalling to me that the prevailing mentality of Oregon's legislature. Taking a consistent and aggressive approach towards law abiding citizens with the end goal of outlawing their Oregon and Federal Constitutional rights. For the purpose of silencing opposing views. Removing the rights of citizens doesn't make us a free or safe state. Removing a citizen's right to protect themselves especially when you won't, is not only criminal, but heinous.

I strongly oppose any further encroachment upon the rights of ALL citizens of Oregon. Please set aside your hypocrisy of majority rule. You choose NOT to listen to opposing views and silence those that you disagree with. That level of unsavory exclusion is detrimental to all, and further reinforces bad narratives and conspiracy theories. I encourage you to have actual transparency and just tell the public that you want absolute rule and compliance. At least being honest would remove the fake moralistic pretense that these types of laws pander to.
