

Submitter: Robert Bernstein

On Behalf Of: wife and myself

Committee: Joint Committee On Ways and Means Subcommittee On Natural Resources

Measure: SB5509

Wife, Laura Webb, and myself wish that the Legislature fully fund programs that will further the knowledge of our watersheds and aquifers. Potable water is a scarce commodity and integral to all forms of life. We can only make smart choices for ourselves and wildlife if we have a sound understanding of where we stand.

Accounting may lead to politicking and be unpopular but it's really the only way to go....please fund ODFW's Water Program, fund ODFW's POP 107 to ensure that water policy takes Fish and Wildlife into consideration. To assist in the protection of Salmonids fund ODFW POP 102.

Respectfully,

Robert B. Bernstein

Laura Webb
