

Submitter: Rodney Dieckhoff
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB3390

As a sportsman / outdoorsman one of my pleasures is fly fishing . I enjoy tying my own flys, the real pleasure is when I catch fish on flys I have made. I feel if this HB is carried out it would not allow me to purchase the materials needed to do what I enjoy. I also enjoy trapping and have just introduced this hobby to my family and look forward to pursuing fur-bearers. I feel that by essentially banning the various aspects of trapping there will be at some point in time an over population of fur bearers that will result in death from starvation and disease.
