

Submitter: Eileen Sleva

On Behalf Of:

Committee: Senate Committee On Natural Resources

Measure: SB85

Oregon is known for its family farms. I drive by many "Century" farms every day. If we continue to allow CAFO operations in Oregon, we will destroy our family farms. CAFO's encourage corporate land ownership, driving up the price of land for our family farmers. They also use and pollute vast quantities of water. And what of the animals that are so mistreated by this type of operation. Is this how we should be raising food? Stop allowing corporate greed into Oregon. Kick out the offenders and don't allow any further growth in this destructive industry. Vote in favor of SB 85-1.
