Measure: HB3390

I hereby oppose HB3390. To ban the sale of fur in this state is detrimental to my livelihood as well as to other men and woman that reside in this great state. I rely on this source of income to provide for my family. I respectfully ask those of you that have taken an oath of office to remember your words and the oath you have taken and to uphold that oath. I kindly remind everyone, that if you look into this great nations mission statement, the Declaration of Independence, in the second paragraph, our founding fathers acknowledged to the world that there is a self evident truth in life, that all men and women are created equal, given unalienable rights from God, that among these are the right to life, liberty and the pursuit of happiness. And that government is instituted among men to uphold and protect these very rights by the consent of the governed. HB3390 would strip away the right to individual liberty and to the pursuit of happiness. Not only would it take money from my pockets that I have worked very hard for, but from others as well. It would tell us that we are not allowed to pursue our own happiness, to provide for our loved ones in the best way we see fit. To support and pass HB3390 is to ignore the very mission statement of our nation that our founding fathers so boldly declared to the world long ago. Thank you for your time.
