

Submitter: C Neubert

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB2006

HB 2006 goes beyond existing federal laws and regulations in restricting ADULTS aged 18 to 20 whom are old enough to vote, enter into contracts, join the military without parental permission, and get married. It is unreasonable for something like HB 2006 to deny them Second Amendment rights. There is no indication that this group of adults identified only by age, contributes to crime any more than any other random demographic, this bill just strips them of their rights.

Many members of active duty military as well as the Oregon Army National Guard are between the ages of 18- 20, they are considered old enough to risk their lives for their country and responsible enough to carry arms in the military. Let's control criminals instead of stripping the law abiding of their constitutional rights. Let's also reform mental health and truly make a difference.
