

Submitter: Clayton Caswell

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB2007

This bill would ban that practice and instantly make thousands of Oregonians criminals for having them.

If a person under 21 lawfully owns any firearm today, they will become a criminal when this bill goes into effect.

The language in the bill would be able to also extend this prohibition to "adjacent ground." This dangerously vague language could give local governments complete control over your Second Amendment rights and render your CHL basically useless in situations when you might need it.
