

Submitter: Robert Keudell
On Behalf Of: HB 2006
Committee: House Committee On Judiciary
Measure: HB2006

To prohibit any person under the age of 21 of possessing a firearm legally is misguided and unfair. Many young adults are currently allowed to possess a firearm legally, and to take away that privilege is unfair and an act injustice. The vast majority of people under the age of 21 that possess firearms handle them in a responsible manner. How many incidences are there where someone under the age of 21, that legally own them, act in an irresponsible manner? Passing this bill would take away memories of hunting and target shooting as a young adult. There are more important issues this state faces besides taking away more rights from Oregonians.
