

Submitter: Nicole Dorfman

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB2005

Chair Kropf, Vice Chairs Andersen and Walan and members of the House Judiciary Committee:

Ghost guns are undetectable in metal detectors and make places like concerts & airports unsafe! I have a student who attends a Portland Public high school. With the uptick in drive-by's and threats at Portland area schools, I am fearful everyday that a shooting may occur at hers or other city schools. I urge you to support HB 2005 to make our public spaces safer, without gun violence.

Thank you,
Nicole Dorfman
