Measure: SB320

I do support this, I believe M11, as written, violates the constitution, it is a 1 strike and you are out, everybody's case is different, do they deserve to be there, 99.9 percent probably do, that being said, they also, (first offenders), deserve a second chance, meaning good time. Many made a stupid mistake, and yes they deserve the consequences, BUT, first time offenders deserve a chance for good time. There IS NO help given in prison, for ANYTHING, no rehab, no education, no treatment, nothing. Sex offenders don't get treatment until they are released, why not while they are in? BEFORE they are released. The prison will say they don't want to let everyone know who the SO are! That is bull, the inmates know, before the AIC gets into the prison, WHY they are there. There is no anger management, no SO treatment, no nothing for rehab.
