Committee: Senate Committee On Finance and Revenue

Measure: SB540

By the time that I retire, I will have served in the Armed Services for over 38 years. While I have thoroughly enjoyed my service to country, state, and community, I am now in the growing minority of individuals with the propensity to serve. This bill would be a welcomed benefit for those individuals that have sacrificed for others, as well as an additional incentive for others to serve and/or continue to serve.
