

Submitter: Connie Connie

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure: SB525

Honorable Commissioners,

With all my heart I ask you to adopt SB525. We absolutely **MUST** do this for air quality, noise abatement, and the health of the lawn crews. There are electric tools to do the jobs--more quietly and without emissions. Lawn maintenance companies should be given incentives to make the switch **QUICKLY**, including for turning over gas-powered machinery, for (e.g.) vouchers good toward electric.

Please adopt SB525. It's the right thing to do, and past time to do it.

Thank you,

Connie
