

Submitter: Angela Conner

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB2006

I oppose bill HB 2006. Again this is a lack of common sense. Those who already legally own a firearm should not be punished. Law abiding young adults who have already been through a background check and or done a concealed weapons course or even a hunter safety course should not be treated like criminals. Also as a woman I completely disagree. Many woman carry concealed handguns for protection. I am sure many women have been saved from a dangerous interaction because they were able to defend themselves. If we inact this bill you will be making women and law abiding citizens more vulnerable. Thank you for your time.
