Measure: HB2007

I submit this testimonial in support of this bill. I was just in the State Capitol and had to pass through metal detectors at the entry. I was stopped each time- because I had a pair of 4' tweezers in My bag. The fact that I am scrutinized for such a small item in My own Capitol building- because of security concerns- galled Me. If someone else is carrying a concealed weapon- and can enter into a public facility without having that weapon confiscated is completely unjust.
