

Submitter: Sara Foerster
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB2006

Please acknowledge the research and common sense and pass the bill to raise the age for purchasing/possessing semiautomatic firearms. There is no reason why an 18- to 20-year old young person should be able to purchase these weapons, when they are already restricted from purchasing handguns. Individuals in this age range commit gun homicides at a rate nearly 3 times greater than adults 21 and over. Help me keep my family safer by passing this common-sense law!
