Committee: House Committee On Judiciary
Measure: HB2007
To: House Committee On Judiciary

I am writing in support of HB2007. I grew up around guns and am very aware that many people think it is safest to always have a gun on them. I, as a non-gun carrying citizen have never felt safer knowing someone near me has a firearm. How am I to know how often they practice, or what type of training they've had, or if they are even legally licensed to conceal carry? Please allow local governments the authority to prohibit guns on municipal property even if someone has a concealed carry license.

Sincerely,
Serena Olive
