

Submitter: Debra Gaisford
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB2007

Dear Judiciary Committee,

I write in support of HB 2007, which allows local governments to prohibit guns on municipal property – such as government buildings, court buildings, or adjacent grounds – so long as they put up a sign.

Local governments should have the ability to keep guns out of sensitive places, such as courthouses and government buildings. No one should ever be required by a state to allow guns on their premises. Courthouses and government buildings are targets for politically-motivated violence. For public safety and the health of democratic institutions, guns should be prohibited in these places, including those owned by people with concealed carry permits.

Please send HB 2007 to the floor.
Thank you,
Deb Gaisford
