

Submitter: Lonny Brady
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB2005

Many legally purchased guns are not traceable to their current owners as they were legally traded through private sales prior to current law.

We need to stop chasing guns and lock up the criminals who commit crimes with guns. The law proposed will turn legal gun owners who are not causing problems into criminals.

Criminals do not make their own guns because their interest is in the crime, not the gun. Home made guns may be assembled but they usually don't work and need testing and special attention.
