

Submitter: Metta Willey

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2002

I'm a pediatrician at Metropolitan Pediatrics and I want to whole heartedly support the reproductive rights of all people including adolescents. It is essential that we support both reproductive rights and gender affirming care so that we can protect both the physical and emotional health of adolescents and young adults everywhere.

Thank you

Metta Willey, MD
