

Submitter: Emma Dixon

On Behalf
Of:

Committee: House Committee On Agriculture, Land Use, Natural Resources, and
Water

Measure: HB2659

It's not clear to me that the authors of this measure have any particular climate projects of their own that they are concerned about not being able to implement under the current rules. Rather it seems this is an attempt to delay any climate change mitigation in favor of doing nothing. No thanks. Let the rules stand and be adjusted if legitimate, good-faith efforts to implement projects need more locally specific regulations.
