I Oppose HB 2006

Persons can vote at age 18. Persons can serve in our military at age 18. But these same persons who can decide to risk life protecting us, or vote - are unable to responsibly own a firearm?

Even more alarming is the provision in this bill that would impose repossessing current, lawfully obtained and owned firearms in persons under the age to vote or serve our country. These individuals will have to choose whether to become criminals.

Laws only contain law abiding citizens. Law-breaking, evil, drug inebriated persons do not follow laws.
