

Submitter: Judi Henkle

On Behalf Of: Self and grandchildren

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2002

This bill is treading into dangerous territory. The family is such a critical unit and to deprive that unit of open discussion is abhorrent. We are talking about children not adults. A child's brain is not fully developed until about age 25 give or take. To assume a child could truly understand the potential consequences of their decision made as a child without family discussion and support is ABSOLUTELY ABSURD.
