

I strongly oppose House Bill 3446. My friend owns an automobile that can go 180 miles per hour and could kill a lot of people if he breaks the law by driving at that speed. If the state makes it illegal to own a gun that could kill, it should also make it illegal to own a car that someone could use to break the law and kill another person. Since we know that cigarettes kill people, we should also make it illegal to sell and smoke cigarettes. The lawbreakers will continue to break the law and use guns and cars unlawfully. Take away guns and killers will use knives. Take away knives and killers will use rocks or poison. Depriving law abiding citizens of their rights won't stop people from breaking the law.
