

Submitter: Matt Anderson

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB3090

As elected officials what you are doing is Ludacris, you are wasting the money of the taxpayers who put you there. The way I see it you have 2 reasons for doing this .. 1 and the pr reason is the flavored vapes are more enticing to kids well you are either arrogant or naive to think you are going to stop all underage consumption and number 2 and the biggest truest reason is it takes away one for your biggest forms of population control that the community willingly pays for with over 500,000 deaths a year and so far no deaths due to vaping and you don't like this because more people are vaping . What are you gonna do next make us file forms to get in our cars to go to work.... You CANNOT ban free will
