

Submitter: SHANTEL SCHROEDER
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB2005

This bill is a clear encroachment on our 2nd amendment right. For those who have legally made a firearm for self-protection, this bill, if passed, would make them instant criminals. These bills DO NOT prevent criminals from obtaining firearms, it does not make a community any safer. In fact, it actually makes communities less safe by removing firearms from law abiding citizens and leaving them in the hands and possession of criminals. It's time those legislators who are pro gun reform look at the actual issue at hand; Mental illness and drugs. That is where the problem boils down too.

I oppose this bill, and I urge you to, as well.
Shantel Schroeder
