

Submitter: Teresa Burns
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB2005

Dear lawmakers,

Once again I find myself writing testimony to stop another bill, HB 2005.

Oregon has become a gun grabbing state, a state of turning law abiding citizens into criminals by creating bills that could send them to prison and have hefty fines.

I own a weapon to protect myself and my family should I need to. I just recently read about a family in Salem, that were awakened by people breaking into their home. This was caught on camera, two men with guns. It did not say whether the residents were armed. But if someone breaks into my home I want to be prepared.

HB 2005 criminalizes you for "undetectable firearm". Exactly what does this mean?

Criminals do not care about your bills. They will find a way to purchase a weapon no matter what. No amount of law will stop it, they will turn to a black market, similar to prohibition of alcohol. It didn't work then and it won't work now.

Please oppose this bill HB 2095.

Sincerely
Teresa Burns
