

Submitter: jim jagger  
On Behalf Of:  
Committee: House Committee On Judiciary  
Measure: HB2005

My name is jim jagger. A life long resident of oregon currently residing in eugene. 4 children, 7 grandchildren. Retired attorney, with aprox 5 years prosecuting and senior prosecutor in the lane county District Attorney's office. For years a member of lift every voice, ceasefire oregon and mom's demand action eugene. I am here to support HB 2005,6 and 7.---- Today in Denver a student brought to school a firearm and shot two staff members. Still looking for him. -----How can we not support enacting laws that puts a stop to ghost guns, the guns of choice for those who could not pass a background check, 05. Or restricting the possession of firearms, except for hunting purpose, of persons under the age of 21, 06 and allowing local governmental officials to make decisions restricting firearms in public places 07.-----I am familiar with the Bruen decision and second amendment issues, and the House Bills are constitutional. Also familiar first hand with the death and unspeakable pain caused by misuse of firearms. ----- A close friend and leader in Mom's demand in eugene has a son in the first grade. He came home a few days ago and told his mom that the son's best friend, a girl, also in the first grade, had a disagreement with an angry 1st grade boy. The angry 1st grade boy did not have a tantrum, did not throw anything, did not try to hit or swear at the little girl. no. The angry little boy instead said, "I'm going home to get a gun and come back and kill you". -----That's where we are in society today. A different society than when our constitution was written. ---- --I am here because I want to face my grandchildren and tell them that this day I am doing all I can to make their life safer. I believe that is what you want to say to your's also. So lets support 2005,6 and 7. Your participation in this will be something forever to be proud of doing. Saving lives is a good thing, you know. Thank you.
