

Submitter: Christian Bennett  
On Behalf Of:  
Committee: House Committee On Judiciary  
Measure: HB2007

Hello House Committee on Judiciary,

I am writing in opposition to HB2007. HB2007 only impacts the statistically most law abiding members of society who have elected to seek additional training and be subject to lengthy background checks and fingerprinting on regular basis. Statistically, this group of people are not committing crimes with a concealed handgun which demonstrates that there are no harms being reduced by this bill. The harms created by this bill include a patchwork of non-uniform regulations that individuals will now have to navigate at risk of criminal charges to go about ordinary day to day life.

Thank you for considering my opposition to HB2007.
