

Submitter: Nina Brenner

On Behalf Of:

Committee: Senate Committee On Natural Resources

Measure: SB85

Please move SB 85-1 out of committee

While I would have not objected to limiting the moratorium to poultry, the -3 amendment will not ultimately protect the communities affected by the proposed poultry CAFOs. The -3 amendment doesn't allow enough time to craft legislation to adequately regulate them.

Please move SB-1 out of committee.
