Measure: HB2005

I am writing in opposition to HB 2005. I have yet to see any documentation regarding gun crimes that included so called "ghost guns". Everything that I have read and seen has mentioned firearms with the serial numbers scraped off. The ATF already has rules and regulations regarding "ghost guns". This does not affect criminals this will only affect the current law-abiding citizens as there is no grandfather clause. This would mean current owners of unlicensed firearms (obtained legally according to the ATF) would be criminals in the eyes of the Oregon government. The state is currently infringing on my 2nd amendment rights by Oregon State Police taking more than 30 days to process my background check for a firearm so this would be a legal way for me to obtain a firearm if I was to need one. So how am I, as a woman, supposed to protect myself if I cannot obtain a firearm due to current backlog at the Oregon State Police? Thank you for taking the time to read my testimony.
