

Submitter: Carol Gleason

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB2005

Oregon, like many other States has not done enough to come up with a solution for the senseless killing that has taken place far too many times in the name of "personal freedom" when it comes to owning guns. The problem is not in "owning" guns, it is the irresponsibility of gun sellers and gun owners that allows guns to get into the wrong hands. There is also NO earthly reason that one needs to own an "assault" style weapon.
