

Submitter: Pamela Schwartz  
On Behalf Of: Myself  
Committee: Senate Committee On Natural Resources  
Measure: SB85

Hello my name is Pamela Schwartz. I'm born and raised in Oregon, with multiple generations of my family being born and raised here as well.

Please pass this bill as originally written (SB 85-1). There should be no place for factory farming in Oregon. We are known for caring for the environment in the Pacific Northwest and this causes environmental issues, health issues and is mistreatment of animals.

Thank you for your service and work towards making our state a better place to live for all!
