

Submitter: Chip Mayes

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB2005

To whom it may concern I understand that many of you making these decisions have zero actual experience with firearms and if you choose not to that should be your choice but I would hope that you actually seek out actual professional firearms experts and not a actual group of people who have opinions and not experience with firearms trying to force you to make decisions based on anti firearm articles and statistics.
