

Submitter: Logan Ballinger

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB2006

I enlisted in the United States Marine Corps at age 18 as do most Americans that serve this great nation. At age 18 we are handed a gun and sent to war to serve our country but those same young people fighting for America and the constitution can't own a firearm under this bill? Which is a right guaranteed to them by the US constitution. The same constitution they raise thier right hand and swear under oath to uphold. At 18 years old you can die for your country but according to the politicians sending them to war they aren't responsible enough to own a firearm.
