

Submitter: Susan Calhoun

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB2006

When an 18-year-old can join the military and die for this country why would Oregon take their right to possess a firearm away from them? Under this bill an 18 year old can join the military, go to a foreign country to fight for our freedom and come home to Oregon and be denied the right to own a gun. This bill penalizes the masses because of a few who may commit a crime. In rural Oregon there are people under 21 who are home alone in the country where a number of situations could arise that they may need a firearm for. This bill is putting a burden on law enforcement in rural Oregon that is unnecessary.
