Committee: House Committee On Judiciary

Measure: HB2007

Bend Safeway shooting, concealed gun carrier protected citizens while they ran out of the store, while husband ran to his vehicle to retrieve his firearm, then ran back into Safeway to assist in evacuating patrons.

Only the criminals will be in possession of guns, this is not going to stop someone from shooting someone else, however a law abiding citizen with concealed carry permit may be able to intervene! This law will restricted that opportunity while victims wait for 9+ minutes for the authorities to arrive.
