

Submitter: JERI SCHLEKER

On Behalf Of:

Committee: Senate Committee On Housing and Development

Measure: SB611

I am a retired single woman who lives on the proceeds of my rental property in Bend. I moved to Missouri to be closer to my son. It took me many years to pay off my Bend house with a plan to support myself for the rest of my life by renting it out. I did many repairs before I retired five years ago knowing that it would be difficult to support myself and do major repairs to my rental. I have been keeping up with the increase in the price of living thus far. Bill 611 would make it very difficult to do any repairs that the house would need in the future which would make selling it my only option and would make one less rental for people who can't afford to own.

Please help me and future Bend lovers by not passing bill 611.

Missing Oregon,

Jeri Schleker
