Measure: HB2006

I am writing in opposition of House Bill 2006. Growing up as a young adult, it was a privilege and a gift to be able to go hunting with my father. I was given a hunting rifle at a young age and was taught what was right and what was wrong. Having been taught this has made me a better person and gave me the necessary tools to provide for myself and my family. Young adults under the age of 21 need to be able to purchase and possess firearms, we need to teach these young adults what is right and wrong. Not punish them for something they never did. You are attempting to strip the rights of every young adult under the age of 21. Yet you are ok to send an 18 year old in a time of war.

This bill will not prevent any gun violence. You are only punishing young adults that are law abiding citizens, ones that want to join the hunting and shooting community to better themselves, their families, and the ones around them.

This bill will also deny any young women the right to protect herself for anyone wanting to do her harm. Can you imagine restricting the right for a young women to protect herself.

Thank you for you time, and for hearing my opposition on HB 2006.
