

Submitter: Lee Zucker

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure: HB3464

The science is in: Oregon would benefit from beavers at work; it is not in our best interests to continue considering this industrious, harmless mammal a pest or predator or common rodent. An inconvenience to some, yes; but so what? We need beavers at work to help the state undo the mess that humans have made of our climate, our once-healthy wetlands, and our damaged ecology.
