

Submitter: John McBride
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB2005

This bill ties the hands off the wrong people. If the idea is to make our society safer, this won't do it. Having the knowledge and expertise to assemble a firearm isn't for idiots. It's takes years of training to be able to do this. Please see want this bill would take away from good and honest people. Thank you
