

Submitter: Mark Waggoner
On Behalf Of:
Committee: House Committee On Rules
Measure: HB2004

Greetings committee members,

I encourage you to support and pass HB2004 to use ranked choice voting for Oregon elections. This change would have positive effects on our elections process and election results.

- * Voters will be able to express their true preferences in races with more than two candidates
- * Elimination of election wins in which the winner received less than a majority vote
- * Potentially less divisive campaigning, as candidates will need to court second place (or more) votes
