

Submitter: Natalie Serber

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB2005

Lawmakers should support HB 2005, which would help save lives by prohibiting undetectable, untraceable firearms which never go through a background check. Why is my right to walk through my neighborhood, go to a movie theater, to the grocery store without worrying about firearms and mass shootings less important than someone else's right to possess firearms like these? We've suffered shootings at schools, markets, drugstores, movie theaters, places of work, please, do the right thing and ban these weapons.
