Committee: House Committee On Judiciary  
Measure: HB2005

Hello,

I advocate for responsible firearm ownership in the state of Oregon. This bill is making illegal, with no path forward, firearms that were produced fully in the bounds of existing state and federal laws. You are setting a grave precedent for any law abiding citizen going forward and violating your oath to uphold the state constitution if you pass this law. At the very least, a plan for legitimate path forward would show that the writers of this bill had actually even thought the law through beyond knee jerk reactions. Not even an amnesty period to get a firearm registered smells a whole lot like "gun ban".
