On Behalf Of:

Committee: Senate Committee On Housing and Development

Measure: SB611

landlords are so often "mom and pops" this segment is a backbone of our economy and country.....

restrictions on landlords are way over the top.....please realize that they cannot literally support everyone.....

as time goes on the total available housing will go down.....landlords just can't support all the concessions,,,,,,,,,the scale of tenant friendly states has to reverse or scale back.

they will merely sell as it is not sustainable.

also look at the impact on inflation,,,,,,,,,,,,,rent prices will go up.....where does that mean for everyone.....
